Voltara Grid Systems Investor Presentation

We continue to monitor supply chain conditions, including lead time trends for transformers and switchgear.

Our stock price rose 23% during the quarter, and two analysts upgraded their ratings to buy.

Supply and demand for power equipment

Customers now face lead times of 30 to 36 months for large gas turbines.
Transformer, turbine and switchgear capacity is sold out through 2027 across the industry.
Revenue growth reflected higher demand for AI infrastructure and data center capacity across our markets.
